

**“GREEN ENERGY HUB” - LAUNCHES
- CHAMBER OF COMMERCE BRANTFORD/BRANT INITIATIVE -**

*Landfill life-span to increase from 15 years to 1000 years,
“essentially it will enable closure”*

**WHEN: Wednesday May 20, 2009. 1:30pm-2:30pm
WHERE: 743 Powerline Rd. Brant County (Hwy 403 - Oak Park)**

Wednesday May 20, 2009 - Ground zero of Ontario's first industrial “Green Hub” will be unveiled. A 40sq/km lot in Brant County will be the future home of state of the art waste management technology. “This is an outstanding opportunity for the County of Brant to have a waste to green energy project interested in locating here” said County of Brant Mayor Ron Eddy.

Up to 98% landfill diversion

Renewable Energy Management and Entech, (REM-ENTECH) will build and operate the new facility that will provide **total waste utilization and landfill diversion via waste recycling and conversion to renewable energy.** “REM is committed to the vision of Brant County in developing the province’s first Green Hub”

Garbage truck load reduced to a handful of harmless ash
